Discussing the possibilities for a Community Foundation grant: Experimenting with Lighting ...is Alex Koziara Associate Professor of Theatre Design and Technology Department of Drama, Syracuse University College of Visual and Performing Arts. He is a professor in lighting and scenic design in Drama Design and Technology, and teaches a figure drawing module in 2 classes, as well as in Italy in the summer. He utilizes a fundamental focus on lighting the figure in these sessions, so this is a project that he is very interested in working on. The first session of the month he and student intern, Molly, tried out some new lighting possibilities. As we progress we'll need your VOTES to make this a reality...go to <http://mygiving.cnycf.org/cny85> to look at current voting (if you want to support some of Iver's work – you could vote for Jowonio School. In Dec you can vote for OFD Inc.)
