

Open Figure Drawing Inc. Invites you to join our non-juried exhibit of our collective work for the

2025 ANYTHING BUT PEOPLE

A Group Show celebrating our collective works!

Deadline

June 18, 2025, during our Wednesday Drawing session

Reception

Saturday, June 22, 4 - 6 pm

On display from Saturday, June 22 during the Reception
at Delavan Studios, room 413

Open Figure Drawing invites anyone who has drawn with us during any of our drawing sessions to participate in our seasonal shows.

Participants can submit artwork any time between now and June 18.

Submissions may be used to advertise or promote OFD in print or on the Web.

Rules for people whose artwork we are hanging

1. Anyone who has joined us for a drawing session in the last year may submit 2D artwork. You can submit up to 3 pieces of artwork. Your artwork must not contain any people.

2. Submit this form with your artwork.

3. Deliver artwork to Delavan Studios, room 413 by Wednesday, June 18, 7 - 10 pm, during Open Figure Drawing.

The show ends on Sunday, September 21, 2025. We will be hanging a new show shortly afterwards, so do not delay in taking your artwork home.

If you can't make it on September 21, you can take before then.

4. Artwork must have identification and contact information on the back. Include your name and phone number (or e-mail or street address). Optionally, include a title, media, and size information. We also suggest signing and dating your work.

5. All work must be framed & have a wire for hanging.

Please take a look at our hanging system next time you attend OFD to determine if your frame will work.

6. Work can be for sale, but does not have to be. Open Figure Drawing takes a 10% commission on all work.

7. Optional: Package your artwork.

Since we will not be transporting the artwork for this show, it is up to you if you think it needs packaging to deliver it safely to us. Please take all packaging with you after you deliver your artwork.

OFD Inc. takes no responsibility for loss or damage to the pieces. In the history of the shows we have only encountered problems with cracked glass on fast-frame pieces.
